Price: US\$201 / €182 / £128

This publication brings together papers written by researchers and practitioners actively working in the field of Human-Computer Interaction from all over the world in academia and industry. INTERACT is one of the most authoritative international conferences Human-Computer Interaction (HCI). It includes major HCI areas such as: Novel Interface Devices, Interaction Design, Usability, Evaluation, Computer Supported Cooperative Works, Visualization, Augmented Reality and Ubiquitous Computing. This book will be informative to students who study Information Technology and Computer Sciences, to professional designers who are interested in User Interface Design, and to others who desire to understand the state of the art of interactive system design, as well as to researchers in the field of Human-Computer Interaction.
